

Facade Brush vinklet 1883

Flügger Premium is a line of all-round brushes for the quality-conscious craftsman. The brushes have a 2K handle for good grip. The fibres selected distribute the paint efficiently and ensure high productivity.

Product properties

Facadebrush with non drop fibres, an ergonomic handle ensures excellent grip. Flexible brush fibres that minimise splashing and distribute the material efficiently. Suitable for treatment of unbroken surfaces. Can be mounted on a Flügger extension shaft. 2-component material selection and stainless steel ferrule prevents discoloration and provides long life.

- Flexible brush fibres
- 2-component handle
- Facade brush, Angle

Product use

Painting of facades and woodwork. Rinse the brush in water before use and work thoroughly into the paint. Store the brush in airtight packaging when not in use and avoid storing the brush in water.

Application

Use it for all kinds of paint and wood stain. Suitable for facade works. Use of "click lock" extension pole makes painting great surfaces easier.

Cleaning and Maintenance

Clean brushes using Fluren 59. Brush cleaner, Fluren 37 Basic cleaner or liquid soap. For non-aqueous paints, mineral turpentine can be used instead.

Useful Information

Disposal: Remove as much paint as possible from brushes before they are disposed of as small, combustible waste items.

Good practice

Remove as much paint as possible from tools before cleaning. Do not pour liquid paint residue or cleaning fluid down drains. Clean the paint residue from the brushes right up under the ferrule. Paint residue under the ferrule and between fibres will coagulate and result in brittle bristles. Avoid straining the bristles during drying and store the brush dry.
